Foreign Trade Zones:
The Best Import/Export Tool to Mitigate the Impact of Any New Tariffs

OVERVIEW

Is your company importing products that carry import duties?

Are you re-exporting any of the goods or finished products?

Will your company be impacted by any of President Trump's proposed tariffs?

Did you know that products can be admitted into foreign trade zones (FTZ) for storage, exhibition, assembly, manufacturing or processing?

The FTZ program can help you defer and even eliminate having to pay those taxes. Businesses can apply for subzones at their own facilities in Bristol and Plymoth Counties to access these FTZ savings.

Additionally, the New Bedford Port Authority has secured Alternative Site Framework (ASF) status, so your company may apply for a subzone with streamlined paperwork and an expedited 30 day approval process!

FTZ expert & attorney, Scott Taylor of Sandler, Travis & Rosenberg will give an overview of the ins and outs of foreign trade zones and will be available after the presentation for one-on-one meetings to answer questions specific to your company.

WHERE:

Waypoint Event Center
185 MacArthur Drive
New Bedford, Massachusetts 02740

WHEN:

March 6, 2025
10:30 a.m. ET
