

U.S. DEPARTMENT OF COMMERCE
BUREAU OF INDUSTRY AND SECURITY

PRESIDENT'S EXPORT COUNCIL
SUBCOMMITTEE ON EXPORT ADMINISTRATION

Notice of Recruitment of Private-Sector Members

SUMMARY: The President's Export Council Subcommittee on Export Administration (PECSEA) advises the U.S. Government on matters and issues pertinent to implementation of the provisions of the Export Administration Act and the Export Administration Regulations, as amended, and related statutes and regulations. These issues relate to U.S. export controls as mandated by law for national security, foreign policy, non-proliferation, and short supply reasons. The PECSEA draws on the expertise of its members to provide advice and make recommendations on ways to minimize the possible adverse impact export controls may have on U.S. industry. The PECSEA provides the Government with direct input from representatives of the broad range of industries that are directly affected by export controls.

The PECSEA is composed of high-level industry and Government members representing diverse points of view on the concerns of the business community. PECSEA industry representatives are selected from firms producing a broad range of goods, software, and technologies presently controlled for national security, foreign policy, non-proliferation, and short supply reasons or that are proposed for such controls, balanced to the extent possible among large and small firms.

PECSEA members are appointed by the Secretary of Commerce and serve at the Secretary's discretion. The membership reflects the Department's commitment to attaining balance and diversity. PECSEA members must obtain secret-level clearances prior to appointment. These clearances are necessary so that members can be permitted access to relevant classified information needed in formulating recommendations to the President and the U.S. Government. The PECSEA meets 4 to 6 times per year. Members of the Subcommittee will not be compensated for their services.

The PECSEA is seeking private-sector members with senior export control expertise and direct experience in one or more of the following industries: machine tools, semiconductors, commercial communication satellites, high performance computers, telecommunications, aircraft, pharmaceuticals, and chemicals.
